INTERVIEWED BY

Golf Course Industry
Golfdom

Turfgrass professional with 9 years of experience, including work at two World Top-100 clubs and championship tournament preparation. Comfortable with technology, communicates clearly, and motivated by championship agronomy and travel.

EXPERIENCE

Founder & CEO — Turfile

Remote

APR 2025 – PRESENT

Turfile is a GIS platform designed specifically for golf course superintendents, allowing them to manage their assets, team, and property in a spatial environment.

Agronomic Consultant — The Algonquin Resort

St. Andrews, Canada

JUL 2026

Assisted the transition of an incoming superintendent — built out the club's fertility and chemical program, inventory management system, and labour management plan, with team training and irrigation work.

Agronomist — Mid Ocean Club

Bermuda

JUL 2025 – JAN 2026

Deacon, GS3, moisture, and firmness. GPS sprayers and Kress robotic technology.

Assistant Superintendent — Marine Drive Golf Club

Vancouver, British Columbia, Canada

JAN 2022 – JUL 2025

- Mentorship of all 27 Links staff members.
- Eliminated 91% of the low-cut weed population in the 2024 season.
- Created and implemented a bunker depth check program, improving the playability and consistency of all bunkers.
- Led course improvement projects: tee rebuilds and bunker face reconstruction.

International — New South Wales Golf Club

Sydney, Australia

OCT 2023 – MAR 2024

- Led the proposal and installation of a \$21,000 irrigation upgrade, resulting in a 7% reduction in total annual water usage.
- Repairing and auditing Toro irrigation system.

Assistant Superintendent — The Algonquin Resort

St. Andrews, Canada

JAN 2021 – DEC 2021

- Daily supervision of 15 grounds staff.
- Prepped and grew in a 23,000 sq ft bentgrass nursery.
- Repairing and auditing Rain Bird irrigation system.
- Project lead for course improvements: drainage installation, sod jobs, turf establishment.
